Trust Purity Pedia Kids for complete Peace of Mind!

Vitamin & Mineral Supplements

Q Why should babies & toddlers take the Purity Pedia Kids Emulsion?
A Purity Pedia Kids Emulsion is ideal as an immune booster for little ones as it contains Omega 3 fatty acids DHA & EPA. These essential fatty acids are found in cold water fish. EPA & DHA are highly unsaturated fats (polyunsaturated) and they are known to be beneficial for the development and functioning of the brain and eye.

Q How is Purity Pedia Kids Gum & Tooth Gel to be used?
A Purity Pedia Kids Gum & Tooth gel is used to gently cleanse baby’s teeth and gums. The gel contains Tea tree oil, Calendula, Lavender and Vitamin E in a water base. It does not contain alcohol, so it does not sting! Tea tree oil is the most widely used essential oil. It is considered safe, as it has non-toxic and non-irritant properties and is well known for its antiseptic properties. Calendula has soothing and softening qualities and is also known to have antiseptic properties. Lavender oil is one of the safest essentials oils that can be used on the skin, and this is especially useful when treating minor cuts and bruises. It is known for its soothing properties.

Q Is Purity Pedia Kids Gum & Tooth Gel safe to swallow?
A It has been carefully formulated to avoid substances that may be harmful if swallowed. This product is thus non toxic and safe.

Also available in Purity Pedia Kids range: Vita Pops, Nasal Spray, Cough Syrup, Vapor Gel, Arnica Gel and Cradles Cap Cream.
